We're transforming over 276,000 searches every day

With 70 years of customer service experience, we understand that our service must reflect your needs. So we've made sure when you buy online from RS it's quick and easy to find exactly what you need. Not only that, but you can be safe in the knowledge that the very latest stock and price information is there at the touch of a button.

Whether you're new to RS, new to the internet – or just simply looking for the easiest and fastest way to buy components online, we've created this simple guide which explains just some of the features that make buying from www.rsphilippines.com easier than ever before.

Finding the right product

Even with over 238,000 products to choose from, it's still easy to find what you need online. Our website is simple to use, whether you know exactly what you want, or simply want to browse through our products.

The screenshot shows the RS website interface. At the top left is the RS logo. A search bar contains the text '0449922' with a mouse cursor pointing to it. To the right of the search bar is a red 'Find' button. In the top right corner, there is a 'Quick Order Form' link. Below the search bar is a navigation menu with four categories: 'Electronics Components, Power & Connectors', 'Electrical, Automation & Cables', 'Mechanical Products & Tools', and 'IT, Test & S...'. Below the navigation menu is a breadcrumb trail: 'Home → Connectors → Electrical or Power → IEC Connectors → Cable Plugs and Sockets →'. The main content area displays the search results: 'Your search for 0449922 matched 1 product'. Below this is a product title: 'Blk re-wireable straight plug, 10A 250Vac'. The product image shows two views of a black and white plug. To the right of the image is a table with product details:

RS Stock No.	449-922
Manufacturer	Bulgin
Manufacturers Part No.	PX0686
Catalogue page	2 - 2191
RoHS Status	✓ RoHS RoHS certificate of compliance

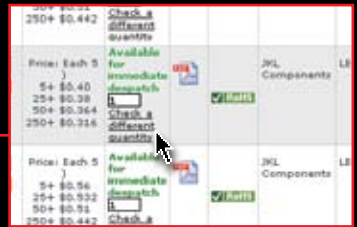

Below the product details is a table with columns for 'Quantity', 'Each', and 'In stock'. The 'Quantity' column has a value of '1', the 'Each' column has a value of '\$2.28', and the 'In stock' column has a value of '1'. There is an 'Enlarge' link below the product image.

Know exactly what you need?

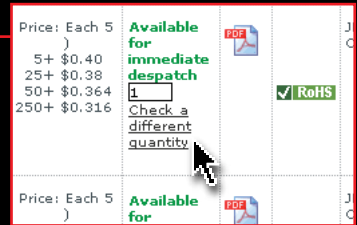

If you know the manufacturer's part number or the RS stock number, you can simply type it into the search box and get taken directly to the product.

Live stock check

For the first time ever online, we now have a live stock checker which gives you the most up-to-date detail on product availability by directly accessing our stock system in real time.

You can also check different quantities which makes planning ahead even easier.

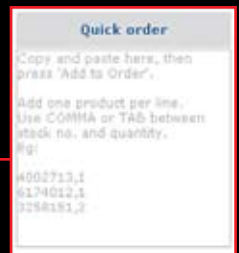

Awaiting stock?

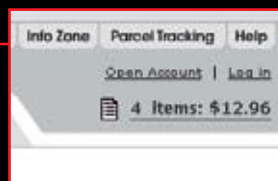

Very occasionally an item may be out of stock. What's most important is when is it back in stock and when will it be delivered. If a product is ever out of stock, our live stock-checker will let you know when it will be available for delivery.

Placing your order online

We've added the 'quick order' copy & paste facility on the same page as the order form for added flexibility and convenience. You can continue adding products individually, paste using the quick order form or a combination of both.

Once you've found your products and simply added them to the order form, you can then place your order online.

Registration

To place your order you'll be asked to log on with your username and password. If you're a first time user of the site, you can register your details in two quick and easy steps taking a couple of minutes.

Once you're registered you can place the order, build and save parts lists and save time on your future orders. If you are an existing RS customer, simply register with your 'RS Contact ID' number and Company Name and your RS account details will be activated online. It's easy.

Log in

Please complete the following

- Required information
- Username
- Password

[Forgotten your password?](#)

Non-UK customers can visit our [International website](#)

Registration: Step 1 of 2

Please complete the following

- Required information

Choose a Username and Password

Each must be 5 characters or more. Fields are case sensitive.

- Username
- Password
- Retype your password
- E-mail address

I wish to receive e-mail updates telling me about new products, offers, latest prices and changes to our services

If you have an existing 'offline' account and 'RS Contact ID' number with RS you can include these details when you register and we will link them, ensuring you continue to get your existing benefits. It's easy, in step one you'll be asked to add your 'RS Contact ID' number and the first 15 characters of your company name as they appear on your invoice and we'll do the rest.

Your RS Account

We can associate your new online details with your current RS account. Simply enter your RS Account Number (as displayed in your invoice, refer fig. 1) and the 15 characters of your company name below.

(Leave all boxes blank if no account)

Account No.

Company Name

*These details are required. Please complete them.
